

## COVID-19 Permitted Activities under national 'Step' Regulations

Issue Date	Version	Issued by
25 <sup>th</sup> March 2021	1	The House of Bishops Recovery Group
This document replaces the document called 'COVID-19 Permitted Activities under national lockdown rules', the most recent version of which (version 3.1) was issued on 7 <sup>th</sup> January 2021.		

*The Recovery Group has been set up to support the Church of England as government guidance changes through the COVID-19 pandemic. This document has been prepared with information available by the issue date. It will be kept under review and updated as the situation develops, with each update issued as a new version. The current version will always be available to download from the Church of England website via the [Coronavirus FAQs page](#).*

The following information summarises how national regulations<sup>1</sup> that come into force on 29<sup>th</sup> March 2021 affect various church-related activities. The Steps are designed so that they may be applied to different geographical areas as well as nationally – so it is possible that not every area will move up a Step at the same time. The restrictions that apply depend on what Step a particular area falls under. Step 1 involves the most severe restrictions, Step 3 the least severe. The table states what is and what is not legally permitted under the relevant Regulations for each Step and the earliest date from which they will apply.

Reference should also be made as appropriate to Government Guidance, in particular [the guidance on the safe use of places of worship](#).

Additional church specific guidance is available on the Church of England's national coronavirus [webpage](#).
